About us

Company Policy and Mission

Our company philosophy values "Quality, integrity and complete customer satisfaction by consistently delivering high quality services performance and safety on time, every time".

Your project is important to each and every person in our team. We pride ourselves on obtaining customer satisfaction.

Our quality policy is "Your Satisfaction, our Pride"

Commitment

The Company is committed to providing a quality service to its clients who accurately interprets their requirements and satisfies their expectations in an innovative, economic and efficient manner.

The Company Introduction

WMI CONSTRUCTION LLC is a reputed enterprise making its mark in the Construction Industry in U.A.E.

Since its inception in 2008, the Company has been providing unparalleled services to its client's on a continuous basis with reliable solutions to their most complex Construction challenges.

Today we are recognized in the Industry for our strength in the traditional Construction methods and for our creative, fresh approach to cutting edge technologies and delivery systems.

Our expertise spans the Construction Industry Spectrum, from smaller renovations to high scale projects.

We specialize in Commercial, Educational, Industrial, Residential Construction, Maintenance, MEP Works, Interior Designing, etc.

Our thorough knowledge of Dubai Municipality formalities, JAFZA rules and regulations, excellent contracts administration, cost and quality control and high level of safety standards further contributes to our reputation.

Our company has a strong technical base of well qualified professionals and experienced engineers; dedicated team of supervisors; skilled, well trained and experienced technicians having thorough knowledge in their respective fields providing progressive service and dedicated support to all on-going projects at each designated location.

Our team of Construction professionals offers a single source solution for all of your Construction related needs. Whether its restoration, site preparation, a new facility, facility renovation, we have the experience and the personnel to provide the highest quality Construction on Schedule and within the budget. We support our Clients from Project inception to the commissioning of the fully operational facility.

We have the capability and adequate infrastructure for undertaking and executing multi contracts, complete annual maintenance works, Construction of G+1 villa with service blocks, Construction of Warehouses & Industrial Projects and other Interior Decor works in any part of the U.A.E.

The guiding philosophy behind the existence of the company is to make available to our customers product and services of commendable quality with strict adherence to time schedules and technical specifications at prices that offers better value for money.

Health and Safety Policy

In order to maintain a Safe and Healthy workplace, WMI CONSTRUCTION will

- ❖ Seek to ensure its facilities operate to the highest standards to protect the staff, sub – contractors, visitors and the public.
- ❖ Provide safe Systems of work developed in consultation with staff taking into account the hazards identified and implementing risk minimization control.
- ❖ Ensure the reporting and investigation of injuries, illness, incidents and near misses is conducted in a consultative manner to prevent recurrence.
- ❖ Consult with staff and encourage initiatives that contribute to a safer and improved working environment.
- ❖ All our personnel have been trained to follow quality and safety policies of our company, concerned departments as well as those of the clients and consultants while executing the services.
- ❖ Work in a safe and environment friendly manner, in accordance with all current applicable HSE legislation and other relevant HSE requirements of our interested parties.
- ❖ Regularly monitor and audit its activities for compliance with the HSE Management Systems, Domestic and Internal Regulations.
- ❖ Only select Sub-contractors and suppliers who are able to demonstrate a continual commitment to prevent of pollution and are capable of accomplishing high levels of HSE control whilst carrying out their duties.
- ❖ Conduct regular inspection and audits on Sub-contractors and suppliers to monitor their HSE activities.
- ❖ Make stringent efforts to reduce Health and Safety risks in order to achieve our ultimate safety goal of zero accident.
- ❖ Review periodically and upgrade as necessary the HSE Policy document their HSE Management Systems.

Environmental & Safety Training & Awareness

INDUCTION

All personnel working on the project site, including subcontracting staff, will be inducted into the requirements of this E&SMP and advised of any updates to the E&SMP that are relevant to their specific construction activities. The HSE Officer is responsible for conducting staff inductions and ensuring that all staff has received the ENVIRONMENTAL & SAFETY induction. An induction register will be kept up to date with details of the staff inductions.

TOOLBOX TALKS

Toolbox talks are held periodically with site staff. Training topics that will be addressed during toolbox talks include emergency response procedures and use of spill prevention and clean-up kits, implementation of specific ENVIRONMENTAL & SAFETY safeguard measures and cultural change towards environment. Toolbox talk records will be kept up to date with details of toolbox topics and attendees.

MANAGEMENT TRAINING

ENVIRONMENTAL & SAFETY and management staff will attend any relevant ENVIRONMENTAL & SAFETY training course such as ENVIRONMENTAL & SAFETY awareness training, induction into the Project Management Team's ENVIRONMENTAL & SAFETY guidelines and/ or Local authority EHS guidelines Contractor Requirements, and other such sessions offered.

HAND TOOLS AND POWER TOOLS

GENERAL
